

La 3127 (LM 9.7 to I-310)

St. Charles Parish, Louisiana

Summary:

LA Hwy. 3127 in St. Charles Parish is a developing industrial corridor serving the entire New Orleans region; it is also a designated Hurricane Evacuation Route. The roadway surface is in disrepair and needs resurfacing. The proposed improvement will provide for cold plane and overlay of the worst section between hwy. log mile 9.7 and Interstate 310, a distance of 1.4 miles, and the most heavily travelled section. The estimated project cost is \$1.8 million.

Benefits:

- Project in Economic Development Corridor
- Supports Job Growth and Business Retention
- Needed Road Preservation/Safety Improvement
- Final Plans by LA DOTD
- Shovel Ready Fall '09
